

From Wednesday's Daily.

The chief of police turned into the city treasurer the sum of \$30, last month for fines collected.

Mr. J. A. Rock-How accompanied by Rev. Nugent left yesterday for a visit to the formers' ranch.

Col Wm. Hood chief engineer of the Southern Pacific company on his return to San Francisco is stated to have said: "I have been to Yuma, from Yuma east to Adonde we shall build a new line on the mesa. Just where, the survey now being made will decide. The new iron railroad bridge will be built from the prison hill across to Ft. Yuma hill; much higher than the old bridge and the railroad grade will be high enough so that high water will never affect it again."

City Council.

The council had a special meeting last night. Among the accomplishments of the meeting was the election of Fred Fuss as treasurer.

The election of clerk was deferred till this evening.

A. W. Smith acted as clerk pro tem in the absence of Al Staniger.

A motion was made by Prindville to elect a permanent clerk and A. W. Smith was nominated. The mayor declined to entertain the nomination as he doubted the legality of a councilman holding the position of clerk of his own body. Prindville appealed from the decision of the chair, but oil was poured on the troubled waters by Councilman Fuss who proposed that the selection of a clerk be postponed till this evening.

Frank Ryan filed his new bond in the sum of \$5000 which was accepted.

The Sane Sentinel.

The Huachuca Sentinel, published at the post, reveals a spirit of independence in its last issue. It utters an appeal for dumb brutes in the following fashion:

A squad of ten cavalry horses from St. Louis, reached the post on Wednesday, one died of pneumonia between the station and the post, some of the others were in bad condition from exposure on the trip. It would be economy for the government, besides being very merciful to a poor dumb brute, to provide suitable blankets for horses shipped at this season of the year. These horses are taken from warm stables, some of them accustomed to blankets and shipped subject to drafts, cold weather and storms, and are compelled to endure untold sufferings. So no die, some are ruined from disease contracted on these trips while all are required to be put in the hospital and nursed a month or more to be rendered fit for service. A two dollar horse blanket would save twenty five dollars on the value of the horse and save an amount of suffering to one of God's best and noblest dumb brutes, that cannot be estimated. We protest in the name of humanity, and plead for mercy for one of man's best friends—the horse.

A Military View.

The editor of the Huachuca Sentinel dilates as follows upon the outlook for cattlemen on the ranges along the foothills of those mountains:

The heavy rains of this week has insured plenty of grass for the cattle on the ranges. The prospect for the cattlemen is a hundred percent better than it was a year ago. We rejoice on account of the poor cattle. It is hard enough for the poor things to stand the crucifixion of the brand-iron, and have their ears cut into ribbons, their throats and briskeys ornamented with the dewlap, without being compelled to have the sinews of a warhorse and the fleetness of an antelope in order to run down grass enough for a quarter meal.

Indian Arrests.

The news was sent out from Wilcox yesterday that nine prominent Apaches had been arrested within the last forty eight hours and placed in irons at San Carlos under guard.

Among the prisoners is old Chief Eekimzene. Five of the prisoners are charged with the murder of white men years ago and Eekimzene and the other three are apprehended for giving aid to Kid the notorious renegade and murderer. All of Kid's close and open companions in crime have been killed, but he appeared last week within seven miles of San Carlos and troops were sent in pursuit of him six days ago. Up to yesterday afternoon nothing had been heard from them.

James Kearney is back from Winchester district.

City Council.

The first regular meeting under the new regime was held last night.

The full board was present with the exception of Councilman Hare.

Warrants were ordered drawn on the building fund in favor of

Daily PROSPECTOR \$43 00

E Sydow, oil 3 75

The reports of the treasurer, chief of police and city attorney were accepted and filed.

The auditor and tax collector were granted until Saturday night to make their reports.

A committee from the Militia company asked for a lease of the City Hall for drilling purposes and offered \$10 per month for it with one anti-room.

Referred to the building committee.

The committee on fire reported that they had seen the Huachuca Water Co on the repairing of the fire plugs. They were given further time in which to act.

A. W. Smith was chosen clerk of the council by a unanimous vote.

The city attorney turned over his books and papers, a sign and a linen duster, as per demand made by the clerk pro tem.

The boys had a royal time at Turquois last night, shooting up the town. Whether it was intended for a sere-nade to Superintendent Seaverns, who just returned from the east, our informant did not state.

The coach "Tombstone" of the Tombstone and Fairbank line was turned out today with a complete reconstruction and looks very attractive in the bright coat of paint and varnish.

Superintendent Towne of the Southern Pacific passed through Benson last night on his way to El Paso where he is to meet President Huntington on who is coming westward by gradual stages, traveling during daylight, as Mrs. Huntington who is with him, objects to traveling at night.

Extensive preparations are being made for the Trans-Mississippi Commercial Congress, which will meet in May 18th. The governors of nearly all the states and territories west of the Mississippi have intimated that they will appoint representative men as delegates and all indications point to a very large convention. Mayor Cohn received a request yesterday to appoint a delegate from Tombstone. Anyone desiring to go can get his credentials from the mayor.

April fool day passed without many incidents worth mentioning, unless it be the one which nearly strangled a Chinaman. A lady gave a dinner party and as is usual at all such elite gatherings in Arizona, doughnuts were served for a second course. The Chinaman thought to have a little fun as he had been the butt of all fun during the day. When the doughnuts were eaten into they were found to contain cotton with but a slight covering of lough on the outside. The ladies were very much annoyed as spitting cotton was not one of their accomplishments. The gentlemen who were used to that habit were not bothered. The last seen of the Chinaman he was dodging through Chinatown with a lump in his throat brought on by excessive joy.

A dispatch sent out from Yuma yesterday says that Louis Huller of Mexico, with Gov. Ryerson of Lower California, left there for the mouth of the river to select a crossing for the railroad to be built from Ensenada to Arizona. A branch road will run from the mouth of the Colorado to connect with the S. P. Work will commence next month.

From Murty Long who has just returned from Hookers Hot Springs, the PROSPECTOR learns that Jo McPherson is there and still suffering from rheumatism. John X Smith who was nearly paralyzed is also there not much improved.

B. Frank Hall, who has been visiting Tombstone tells the Star that Tombstone is not half so dull as represented. There are more than three hundred men working in the mines, principally chloriding, and the present outlook for mining in the old camp is very good.

Suit for foreclosure of lien was filed in the District Court today in which Dan Shanklin and Wm Hoxhurst are plaintiffs and the Star Syndicate, G. G. Berry trustee, and the Safe Guard syndicate are the defendants. The amount claimed is about \$1500.

BREVITIES THAT CHEER.

No, CHOLMONDELY TINOETTO was not the originator of tinctures.

How CAN a man follow a calling and yet be at the head of his profession?

Nothing keeps a person from knowledge and wisdom like thinking he has both.

The poker editor refers to an accumulation of old newspapers as a "stack of reads."

By all means, my son, get ahead, but not the kind of a head that is obtained at a tavern.

The young man who thinks that every girl he meets is in love with him manifestly judges others by himself.

It makes the hypocrite distinctly tired to find out that the man he has been posing for is no better than himself.

An editor, puffing air-tight coffins, said: "No person having once tried one of these coffins will ever use any other."

BAGLEY—"Tis not the coat that makes the man!" Brace—"No; I think myself that the trousers are more important."

It has been decided by a Salina (Kan.) judge that hens do not run at large with "any malicious, unlawful or willful intent."

When we consider the henpecked husband, we are more convinced than ever that woman was made of the backbone, and not of the spare-rib of man.

"How does it happen that Dr. Worldly performs the marriage ceremony for so many old maids?" "Oh, he always asks them in an audible tone if they are of age, and they all like him."

"How is Antonio getting on?" inquired a relative of a patient of that name. "So, so," the doctor says that if he lives till to-morrow he may get better; but if he doesn't you may give up all hope."

A woman will tell her friend that her bonnet doesn't fit, that her photograph flatters her, that her new dress wants taking in at the waist or letting out at the bustle, or something like that, but no woman will ever tell even her bitterest enemy that her baby is anything but absolutely perfect.

LITTLE CONFIDENCES.

The trousseau for the infant son of Emmons Blaine cost \$1,700.

The personal estate of the Due de Montpensier has been sworn at nearly \$11,000,000.

Mrs. CHANDLER, the widow of Zachariah Chandler, is erecting a beautiful house in Washington.

The czar is the largest of all living landed proprietors, owning an estate which is nearly equal in area to the whole of France.

The White House children are not so old as they are usually thought to be. "Baby McKee" is three years old, and his sister Mary is only two.

MISS FLORENCE WINDOM, the daughter of the Secretary, is more than an amateur artist. She has been studying in Boston for some time and has done work which critical judges have pronounced more than ordinary.

Mrs. GARFIELD is said to be overwhelmed by her correspondence. Letters come to her from every part of the country and on every conceivable topic. Every communication she receives is given careful attention and frequently a pleasant letter of some length is sent in answer.

Mrs. MAY FRENCH SHELTON, who is to lead an expedition to the Congo in Stanley's footsteps, is a physician of no mean ability, and has also won a reputation as an author and sculptor. She has an enviable position in literary and scientific circles in London, where her husband is the manager of an American banking house.

The Maharajah of Baroda owns a carpet about 10 feet by 6, made entirely of strings of pearls, with center and corner pieces of diamonds. This carpet took three years to weave and cost \$200,000. It was made by the order of Khande Rao, who designed it to be a present for a Mohammedan lady who had fascinated him.

IN SCIENTIFIC FIELDS.

The revelations of the microscope are far more important to humanity than telescopic discoveries.—Inventive Age.

NATILUS shells are being picked up on the coast at Portland, Victoria. They live in the shallow Pacific seas about coral reefs.

The size of an adult Englishman's head is said to average No. 7. The heads of Portuguese average from 6 1/2 to 7; those of Spaniards are a little larger; and those of Japanese exceed the English average. Germans have round heads, Malays small ones.

Although the thickness of the fiber of the finer furs has never been properly gauged, it will be a source of some satisfaction to know that "the diameter of the human hair varies from the 350th to the 600th part of an inch, while the fiber of the coarsest wool is about the 500th, and the finest about the 1,500th part of an inch."

Dr. CARL EIGENMANN has been collecting fish in San Diego for some years. In making up a collection recently for the British Museum he found a new specimen of herring that has pocket membranes for slipping in the dorsal, pectoral and ventral fins. The scales are large, the eyes have a glassy covering and most of the head is transparent.

Secretary Proctor denies most emphatically that the band of Apaches known as Geronimo's band have been returned to New Mexico. The Albuquerque papers which started the story, now have an opportunity to reiterate or apologize. The secretary expressed great surprise that so little advancement has been made in civilizing the Apaches on the San Carlos reservation.

Mrs. J. Tenley is suffering from an attack of paralysis and not expected to live.

PROPERTY SALE.

Territorial Property Sales.

The Board of Supervisors will offer for sale at their office in the court house in the City of Tombstone, commencing on Wednesday, the 10th day of September, at 10 o'clock a. m. 1890, the following described property; said property having been sold to the Territory for the unpaid taxes of the year 1888. Sales will continue from time to time as purchasers therefore may present themselves.

By order of the Board.

B. S. COFFMAN, Chairman.
